GHOST/S

©2001 Zoey Lynne and Diana Lynne

What insanity prevails,
When love that conquers all has failed?
I'm lost, I'm foolish,
I'm hopelessly useless...

I believe in secret devotion,
And the bunkers below the ocean;
(Where) honor is an outdated notion;
And truth became the deadliest potion.

Have you seen the beautiful faces,
Behind the weapons that never leave traces?
No one knows the places...
Only Ghosts remain.

I believe in New World Disorder,
Governments, guns and clandestine orders,
Currency traders, countries and borders;
Nameless people, blood in their mortar.

Careful of the man right behind you,
The one "they" sent to confuse and blind you.
No one ever finds you...
Only your Ghost remains.

CHANT

It's a secret, dark and dirty secret.
It's a secret, dark and dirty secret.

Don't reveal it; you mustn't speak it.
It's a secret, dark and dirty secret.

You mustn't speak it; you can't reveal it.
It's a secret, dark and dirty secret.
